

# **the haven inspiration. one big community. many individual stories.**

## **What is it?**

Part of being a community is sharing our lives with one another. Inspiration is an important part of Haven's Monday night experience, serving as a bridge to the small group dialogue in the second hour. We need you to build that bridge!

Inspiration integrates the night's topic with the personal experience and/or work of the artist. Our upcoming dialogue series, *The Subversive Community*, will deal with how we, as a community of Christians who happen to be artists, can follow in the footsteps of our subversive Lord. Like Christ, we don't seek to be subversive just to be subversive, but seek to follow God—resulting in a subversive community.

**Please note:** While we crave originality and embrace differing points of view, we ask that you respect the audience by avoiding language that is divisive or ridiculing in nature; refrain from agenda-oriented speech; and share your gifts and talents in a creative way, rather than preach or sermonize. Thanks!

## **How do I participate?**

If you would like to participate (or invite someone to participate) in the first hour by sharing an inspiration, please fill out the form below. We will let you know if your inspiration is selected. Submit the form and any supporting materials to Kristen Ball.
